In case of the existing projects, the balance depreciable value as on 01.04.2016 shall be worked out by deducting the cumulative depreciation as admitted by the Commission up to 31.03.2016 from the gross depreciable value of the assets.

Provided that in those cases where the capital investment plan has been approved by the Commission and the depreciation rates as provided in these Regulations are insufficient for the repayment of loan, the rate of depreciation shall be decided by the Commission at the time of issuance of tariff order, subject to prudence check.

24.5 Till the separate SLDC Company is notified by the State Government, the depreciation shall be calculated as applicable for the STU under this Regulations;

4.16 CSPTCL, while calculating the depreciation for FY 2021-22 has followed the methodology specified in the aforesaid Regulation as well as the methodology considered by the Hon'ble Commission in the past and has computed the depreciation as follows:

**Table 8: Depreciation for FY 2021-22 (Rs. Crores)**

4.17 Thus, CSPTCL would like to request the Hon'ble Commission to approve depreciation of Rs. 256.75 Crores for final true-up of ARR for FY 2021-22 as detailed above.

#### **Interest on Loan**

4.18 CSPTCL would like to submit that it has computed Interest and Finance Charges as per Regulation 23 of the MYT Regulations, 2015. The Regulation states that:

*23.1. The loans arrived at in the manner indicated in Regulation 17 shall be considered as gross normative loan for calculation of interest on loan.*

*23.2. The normative loan outstanding as on 01.04.2016 shall be worked out by deducting the cumulative repayment as admitted by the Commission up to 31.03.2016 from the gross normative loan.*

*23.3. The repayment for the year of the tariff period shall be deemed to be equal to the depreciation allowed for that year.*

*23.4. Notwithstanding any moratorium period availed by the generating company or the licensee, as the case may be the repayment of loan shall be considered from the first year of commercial operation of the project and shall be equal to the annual depreciation allowed.*

*23.5. The rate of interest shall be the weighted average rate of interest calculated on the basis of the actual loan portfolio at the beginning of each year applicable to the project;*

*Provided that if there is no actual loan for a particular year but normative loan is still outstanding, the last available weighted average rate of interest shall be considered:*

*Provided further that if the generating station or the licensee, as the case may be, does not have actual loan, then the weighted average rate of interest of the generating company or the licensee as a whole shall be considered:*

*Provided further, in case of new generating station or the licensee commencing its operation after the date of effectiveness of these Regulations, and which don't have actual loan portfolio, the rate of interest shall be considered on normative basis and shall be equal to the Base rate of State Bank of India plus 200 basis points as on the date on which the generating station or a unit thereof or the transmission system or the distribution licensee, as the case may be, is declared under commercial operation.*

*23.6. The interest on loan shall be calculated on the normative average loan of the year by applying the weighted average rate of interest.*

*23.7. The above interest computation shall exclude interest on loan amount, normative or otherwise, to the extent of capital cost funded by consumer contribution, grants or deposit works carried out by transmission licensee or distribution licensee or generating company, as the case may be.*

*23.8. The generating company or SLDC or the licensee, as the case may be, shall make every effort to re-finance the loan as long as it results in net savings on interest and in that event the costs associated with such re-financing shall be borne by the beneficiaries and the net savings shall be shared between the beneficiaries and the generating company or the STU or the transmission licensee, as the case may be, in the ratio of 2:1.*

*Provided in case of SLDC, this provision shall be applicable only to those intra-State entities who are availing long-term services of SLDC.*

*23.9. Provided that the beneficiary shall not withhold any payment on account of the interest claimed by the generating company or the licensee during the pendency of any dispute arising out of re-financing of loan.*

*23.11. In case of distribution licensee, the interest paid on security deposit (cash) to the consumers shall be allowed as a part of the Interest and Finance charges under these regulations.*

*4.19 The actual loan details as per the accounts for FY 2021-22 are as follows:*

**Table 9: Loan Details for FY 2021-22 (Rs. Crores)**

Sr. No.	Particulars	Opening Loan	Addition	Repayment	Closing Loan	Avg.	RoI

Note: -The rate of interest has been computed on the actual loan portfolio at the beginning of the year and therefore has been considered as 9.97%

4.20 CSPTCL would like to submit that it has considered the opening normative loan balance for true-up of ARR for FY 2021-22 equal to the closing normative loan balance for FY 2020-21 as per the submission of the Petitioner based on the audited accounts for FY 2020-21 (true-up based on audited accounts for FY 2020-21). The debt component of 70% of the GFA addition during FY 2021-22 has been considered as the normative loan addition during the year. The allowable depreciation for the year as calculated above has been considered as the normative repayment for the year. The rate of interest has been computed in accordance with Regulation 23.5 i.e. as the weighted average rate of interest on the basis of the actual loan portfolio at the beginning of the year. The actual weighted average interest rate of 9.97% has been considered for computation of the interest on loan for FY 2021-22.

**Table 10: Interest on Loan for FY 2021-22 (Rs. Crores)**

4.21 Thus, CSPTCL requests the Hon'ble Commission to approve Interest on Loan of Rs. 187.61 Crores for final true-up of ARR for FY 2021-22 as detailed above.

## **Return on Equity (RoE) and Income Tax**

4.22 Petitioner submits that it has computed Return on Equity as per Regulation 22 of the MYT Regulations, 2015. The Regulation states that:

*22.1. **Generation, Transmission and SLDC:** Return on equity shall be computed in rupee terms on the equity base determined in accordance with Regulation 17. Return on equity shall be computed on pre-tax basis at the base rate of 15.50% to be grossed up as per Regulation 22.3 of these Regulations.*

*22.3. The rate of return on equity for each year of the control period shall be computed by grossing up the base rate with the prevailing MAT rate of the base year: Provided that return on equity with respect to the actual tax rate applicable to the generating company or the transmission licensee or distribution licensee, as the case may be, in line with the provisions of the relevant Finance Acts of the respective year during the Control Period shall be trued up separately for each year of the Control Period. In case, no tax is payable during the financial year, the tax rate for the purpose of truing up shall be taken as nil.*

*Rate of return on equity shall be rounded off to three decimal points and be computed as per the formula given below:*

$$\text{Rate of pre-tax return on equity} = \text{Base rate} / (1-t)$$

*Where, 't' is the applicable tax rate in accordance with regulation 22.3 of these regulations.*

*Provided that if there is a loss incurred by the generating company or the transmission licensee or distribution licensee or SLDC, as the case may be, in the previous year and based on the prudence check made by the Commission, the Minimum Alternate Tax may not be considered in such a case while determining the return on equity.*

4.23 CSPTCL would like to submit that it has filed Current Tax for FY 2021-22 for Rs. 9.14 Crores as per the audited accounts and requests the Hon'ble Commission to approve Rs. 9.14 Crores for tax expense separately.

4.24 The closing permissible equity balance of FY 2020-21 (as submitted for true-up of FY 2020-21 based on final accounts) has been considered as the opening permissible equity balance for true-up of ARR for FY 2021-22.

4.25 Equity addition during FY 2021-22 has been considered as 30% of the actual capitalisation during the year.

4.26 Considering the above, CSPTCL would like to submit that it has computed Return on Equity as per Regulation 22 of the MYT Regulations, 2015 using the base rate of Return on Equity of 15.50% (without grossing up by MAT rate) and Rs. 9.14 Crores tax expense separately due to actual tax paid during the year.

**Table 11: Return on Equity for FY 2021-22 (Rs. Crores)**

Sr. No	Particulars	FY 2020-21	FY 2021-22	
		(Tariff Order dated 13.04.2022)	(Tariff Order dated 02.08.2021)	Final True-up
1	Permissible Equity in Opening GFA	1339.13	1387.30	1,440.96
2	Addition of permissible equity during the year	101.83	45.45	40.45
3	Permissible Equity in Closing GFA	1440.96	1433.25	1481.44
4	<b>Average Gross Permissible Equity during the year</b>	<b>1390.05</b>	<b>1410.53</b>	<b>1461.19</b>
5	Rate of Return on Equity	15.50%	15.50%	15.50%
6	<b>Return on Equity</b>	<b>215.46</b>	<b>218.63</b>	<b>226.48</b>

**Table 12: Income Tax for FY 2021-22 (Rs. Crores)**

		(Tariff Order dated 13.04.2022)	(Tariff Order dated 02.08.2021)	Final True-up
1	Income Tax	1.98		9.14

4.27 Thus, CSPTCL would like to request the Hon'ble Commission to approve Return on Equity of Rs. 226.48 Crores for true-up of ARR for FY 2021-22 as detailed above. It is also requested the Hon'ble Commission to consider the similar approach for CSPTCL for computation of RoE by grossing up rate of return on equity with MAT rate of %, if adopted for CSPGCL and CSPDCL.

### **Operation and Maintenance (O&M) Expenses**

4.28 O&M expenses include Employee expenses, Administrative & General (A&G) expenses and Repairs & Maintenance (R&M) expenses. As per provision 47.5 of the MYT Regulations 2015:

### **Employee Cost**

(c) The employee cost, excluding pension fund contribution and impact of pay revision arrears for the base year i.e. FY 2015-16, shall be derived on the basis of the normalized average of the actual employee expenses excluding pension fund contribution and impact of pay revision arrears available in the accounts for the previous five (5) years immediately preceding the base year FY 2015-16, subject to prudence check by the Commission. Any other expense of nonrecurring nature shall also be excluded while determining normalized average for the previous five (5) years.

(d) The normalization shall be done by applying last five-year average increase in Consumer Price Index (CPI) on year to year basis. The average of normalized net present value for FY 2010-11 to FY 2014-15, shall then be used to project base year value for FY 2015-16. The base year value so arrived, shall be escalated by the above inflation rate to estimate the employee expense (excluding impact of pension fund contribution and pay revision, if any) for each year of the control period.

At the time of true up, the employee costs shall be considered after taking into account the actual increase in CPI during the year instead of projected inflation for that period.

Provided further that impact of pay revision (including arrears) and pension fund contribution shall be allowed on actual during the true-up as per accounts, subject to prudence check and any other factor considered appropriate by the Commission.

#### **A&G Expenses and R&M Expenses**

(e) The administrative and general expenses and repair and maintenance expenses, for the base year i.e. FY 2015-16, shall be derived on the basis of the normalized average of the actual administrative and general expenses and repair and maintenance expenses, respectively available in the accounts for the previous five (5) years immediately preceding the base year FY 2015-16, subject to prudence check by the Commission. Any expense of non-recurring nature shall be excluded while determining normalized average for the previous five (5) years.

(f) The normalization shall be done by applying last five-year average increase in Wholesale Price Index (WPI) on year to year basis. The average of normalized net present value for FY 2010-11 to FY 2014-15, shall then be used to project base year value for FY 2015-16. The base year value so arrived, shall be escalated by the above inflation rate to estimate the administrative and general expense and repair and maintenance expenses for each year of the control period.

At the time of true up, the administrative and general expenses and repair and maintenance expenses shall be considered after taking into account the actual inflation instead of projected inflation for that period.

*hu2*

(g) The additional O&M Expenses on account of new transmission lines/ substations commissioned after March 31, 2016 shall be allowed by the Commission subject to prudence check at the time of truing up exercise.

- 4.29 O&M expenses include Employee expenses, Administrative & General (A&G) expenses and Repairs & Maintenance (R&M) expenses.
- 4.30 CSPTCL would like to submit that the gross employee expenses (net of employee expenses on account of SLDC) for FY 2021-22 based on the audited accounts are Rs. 188.32 Crores. The details of the same are as below.

- 4.39 CSPTCL requests the Hon'ble Commission to approve Rs. 288.21 Crores towards net operation & maintenance expenses for FY 2021-22.

### **Sharing of gain and losses on account of O&M expenses**

- 4.40 CSPTCL would like to submit that the MYT Regulations 2015 allows incentive/disincentive for better/under performance in operational norms so that such efforts are appropriately recognized and promoted, thereby, ensuring improved efficiency on a sustainable basis.
- 4.41 Regulation 8 of MYT Regulations 2015 states that:

### **8. SPECIFIC TRAJECTORY FOR CERTAIN VARIABLES**

*Targets will be set by the Commission for the items that are "controllable". Besides, trajectory for specific variables may be stipulated by the Commission where the performance of the applicant is sought to be improved upon through incentives and disincentives.*

- 4.42 Regulation 11.2 of the MYT Regulations 2015 mentions the "Controllable factors" as following:

*11.2 For the purpose of these Regulations, the term "Controllable factors" shall comprise of the following:*

.....

*(d) Operation & Maintenance expenses.*

...

- 4.43 In addition to the above, Regulation 13 of the MYT Regulations 2015 has also provision of allowing the incentive/disincentive to the utilities on account of improved/under performance in efficiency linked controllable items.

### **13. MECHANISM FOR SHARING OF GAINS OR LOSSES ON ACCOUNT OF CONTROLLABLE FACTORS**

*13.1 The mechanism for sharing of aggregate net gain on account of over achievement in reference to the target set in tariff order for efficiency linked controllable items other than energy losses computed in accordance to Regulation 71 shall be passed on to the beneficiary / consumer(s) and retained by the generating company or the licensee or SLDC, as the case may be, in the ratio of 50:50 or as may be specified in the Order of the Commission passed under these Regulations.*

*13.2 The mechanism for sharing of aggregate net loss on account of under achievement in reference to the target set in tariff order for efficiency linked controllable items shall be passed on to the beneficiary/consumer(s) and retained by the generating company or the licensee, as the case may be, in the ratio of 50:50 or as may be specified in the Order of the Commission passed under these Regulations.*

- 4.44 As per amendment dated 16 June 2017 to the principal regulations, following proviso has been inserted in clause 13.1-

*Provided further that employee cost shall not be factored in for sharing of gains or losses on account of operation & maintenance expenses,*

- 4.45 Accordingly, the employee expenses for FY 2021-22 have been considered based on actual and not subject to sharing of gains or losses. The Petitioner, therefore, requests the Commission to approve Rs.188.32 Crores as gross employee expenses and capitalisation of employee expenses as Rs. 11.00 Crores for FY 2021-22.

- 4.46 A&G and R&M expenses have been subject to sharing of gains/losses as per regulation 47.5 of the MYT Regulations 2015. The calculation of the normative A&G and R&M expenses for FY 2021-22 is as discussed below.

- 4.47 As per regulation 47.5, clause (f):

*(f) The normalization shall be done by applying last five-year average increase in Wholesale Price Index (WPI) on year to year basis. The average of normalized net present value for FY 2010-11 to FY 2014-15, shall then be used to project base year value for FY 2015-16. The base year value so arrived shall be escalated by the above inflation rate to estimate the administrative and general expense and repair and maintenance expenses for each year of the control period.*

*At the time of true up, the administrative and general expenses and repair and maintenance expenses shall be considered after taking into account the actual inflation instead of projected inflation for that period.*

4.48 The Commission's approach on arriving at the normative expenses for A&G and R&M expenses has been adopted. The normative A&G and R&M expenses for FY 2020-21 as determined in the chapter on final true-up of ARR for FY 2020-21 have been considered to arrive at the normative A&G and R&M expenses for FY 2021-22. The same have been escalated by the increase in WPI of 13.00 % for FY 2021-22 to arrive at the normative expenses for FY 2021-22.

4.49 It is pertinent to mention that Regulation 47.5(g) of the CSERC MYT Regulations 2015 states that:

*"The additional O&M Expenses on account of new transmission lines/substations commissioned after March 31, 2016 shall be allowed by the Commission subject to prudence check at the time of truing up exercise."*

4.50 The calculation of the base normative A&G and R&M expenses for FY 2021-22 is as shown below.

Inflation Factor (%)	I	13.00
<b>Base Normative R&amp;M expenses for FY 2021-22</b>	<b>J = H *(1+I)</b>	<b>53.16</b>

4.51 The additional normative A&G and R&M expenses on account of new transmission lines and sub-stations commissioned during FY 2021-22 have been determined basis the methodology adopted by the Commission in its previous tariff orders.

4.52 Assets generated on account of consumer contribution is taken as Rs. 1 in the audited account as per accounting practice. However, assets so generated are being maintained by Petitioner and hence qualify for additional R&M and A&G expenses against these assets. Total assets generated on account of consumer contribution for the respective years are as mentioned below.

FY 2018-19: Rs. 5.78 Crores  
 FY 2019-20: Rs. 13.6 Crores  
 FY 2020-21: Rs. 24.49 Crores  
 FY 2021-22: Rs. 60.36 Crores

4.53 Considering the above, these assets along with the GFA as indicated in the audited accounts have been considered for computing additional normative R&M and A&G expenses for FY 2021-22 as shown below.

Table 18: Additional Normative A&G and R&M for FY 2021-22 (Rs. Crores)

<b>Additional R&amp;M Expenses on account of increase in GFA for FY 2021-22</b>	$G = E * C$	2.57

4.54 The revised normative A&G and R&M expenses, including additional A&G and R&M expenses on account of new transmission lines/sub stations for FY 2021-22 is as shown below.

**Table 19: Revised Normative O&M expenses for FY 2021-22 (Rs. Crores)**

Particulars	Formula	FY 2021-22
Normative A&G expenses for FY 2021-22	A	51.88

<b>Revised Normative A&amp;G expenses for FY 2021-22</b>	$C = A + B$	<b>54.38</b>

Additional R&M expenses for FY 2020-21	E	2.57
<b>Revised Normative A&amp;G expenses for FY 2021-22</b>	$F = D + E$	<b>55.73</b>

4.55 The normative A&G and R&M expenses for FY 2021-22, including additional A&G and R&M on account of new transmission lines/sub stations are Rs. 54.38 Crores and Rs. 55.73 Crores respectively. The normative A&G and R&M expenditure so arrived have been considered for the purpose of gain/loss calculation. The actual net A&G and R&M expenses are Rs. 48.44 Crores and Rs. 62.44 Crores (net of capitalisation) respectively for FY 2021-22. The same have been considered for sharing of gain/(loss) as shown in the table below.

**Table 20: Sharing of gain/(loss) on A&G and R&M expenses for FY 2021-22 (Rs. Crores)**

Sr. No	Particulars	Normative Expense	Actual	Gain/(Loss)
1	Net A&G expenses	54.38	48.44	5.94
2	Net R&M expenses	55.73	62.44	(6.71)
3	Total Gain/(Loss)	110.12	110.89	
4	CSPTCL share (1/2 of Total Gain/(Loss))			(0.38)

- 4.56 The gain/(loss) of Rs.(0.38) Crores on account of expenditure in actual A&G and R&M expenses as compared to the normative A&G and R&M expenses has been considered as part of the true-up of ARR for FY 2021-22.
- 4.57 The Petitioner submits that the prevalent norms of calculation of R&M based on WPI alone are not sufficient and should be linked with the growth in the asset base of the utility, besides inflationary increase.

**Regarding consideration of outsourced works under R&M head**

- 4.58 R&M works indicated in the instant petition for FY 2021-22 have increased to the norms arrived for R&M expenses for these years due to the reason that EHV sub-station of CSPTCL are being outsourced for operational purpose (including cleaning, watch and ward). The details of expenditure under out-sourced works for EHV sub-station for the respective years are as given below.

Sr. No	Particulars (in Rs.)	FY 2016-17	FY 2017-18	FY 2018-19	FY 2019-20	FY 2020-21	FY 2021-22
1	122 kV sub-station	103,535,290	144,088,237	244651969	246262757	242550472	327892887
2	220 kV sub-station	26,547,355	36,481,294	69496040	67528131	70531357	72175718
3	400 kV sub-station				8909046	9066733	48023328
3	<b>TOTAL</b>	<b>130,082,645</b>	<b>180,569,531</b>	<b>3,141,448,009</b>	<b>32,26,99,934</b>	<b>322,148,562</b>	<b>448,091,933</b>

The reason for considering these expenses under R&M expenses is that this expenditure has been incurred on R&M works for EHV sub-stations. There is no separate account head for booking expenditure incurred on outsourced employees. If regular employees of CSPTCL had been deployed for this purpose, then even more expenditure (2 to 3 times) would have to be incurred.

Similarly, for economic reasons, we have employed various personal through outsourcing against vacant post in ministerial cadre; wages of such personal are booked under A&G head, instead salaries/employee expenses. The wages are variable and linked to price index. The vacancies created by retirement are mostly filled up by this method through outsourcing.

The expenditure incurred in the form of salaries and wages (plus a small profit) to outsourced personnel should be treated as a separate line item and not be subject to sharing of gain/(loss). It is pertinent to mention here that these wages are required to be paid by CSPTCL to outsourced employees against the vacant post of CSPTCL for day to day operation (including cleaning, watch & ward) of existing/new EHV sub-stations/offices etc. Since the nature of these expenses (wages) are similar to employee expenses for regular employees, CSPTCL would like to request the Commission to consider the same at par with employee expenses only for the purpose of computation of gain and loss of A&G and R&M expenses.

### **Contribution to Pension and Gratuity (P&G)**

4.59 As per MYT Regulations, 2015 Regulation 32:

#### **PENSION FUND**

*For meeting up the past unfunded liabilities of erstwhile CSEB/State Power Companies employees appointed before 1.1.2004, a pension and gratuity trust has been created and funding to the same has been allowed in the past Tariff Orders of the Commission. The contribution to the fund shall be decided by the Commission on the basis of actuarial analysis, expected pension outflow for the State Power Companies and availability of fund with the Pension trust at the time of determination of MYT / ARR for each year of the control period. However, the actual outflow towards the pension payment shall not be allowed in the O&M expenses covered in these Regulations for the Control Period. The pension outflow shall be met by the Pension trust. The pension fund contribution so determined by the Commission shall be recoverable in the same manner as specified in relevant chapters.*

*Provided till the time SLDC is part of STU, SLDC's share out of the STU contribution shall be decided on pro-rata basis. For the purpose of ratio determination, the employee strength as on 1st April of the preceding year shall be considered.*

4.60 The Hon'ble Commission in its Order dated 02<sup>nd</sup> August' determined ARR for FY 2021-22 and allowed contribution to Pension and Gratuity (P&G) fund of Rs. 87.65 Crores. The same is as provided in the table below:

**Table 21: Terminal Benefits (Pension & Gratuity) for FY 2021-22 (Rs. Crores)**

Sr. No	Particulars	FY 2020-21	FY 2021-22

1	CSPTCL	69.52	87.65	87.65

4.61 CSPTCL would like to request the Hon'ble Commission to approve Rs. 87.65 Crores as P&G contribution for FY 2021-22.

**Interest on Working Capital (IWC)**

4.62 Regulation 25 of the MYT Regulations 2015 states that:

*25.1. The working capital shall cover:*

***(c) In case of Transmission business:***

*i. Operation and maintenance expenses for one (1) month; plus*

*ii. Maintenance spares @ 40% of repair and maintenance expenses specified in Regulation 47.5; plus*

*iii. Receivables equivalent to one (1) month of fixed cost.*

*iv. Less: Amount, if any, held as security deposits from Transmission System users.*

4.63 Further, the MYT Regulations, 2015 states that:

*25.2 At the time of True-up, the receivables for the computation of working capital requirement of the generating company, STU/transmission licensee, distribution licensee and SLDC will be determined equivalent to one (1) month of actual revenue billed.*

*25.4. Interest on working capital shall be allowed at a rate equal to the Base rate of State Bank of India as on 30th September of the financial year in which the Petition is filed plus 350 basis points. At the time of true up, the interest rate shall be adjusted as per the actual rate prevailing on 1st April of the financial year for which trueing up exercise has been undertaken.*

*25.5. Interest on working capital shall be payable on normative basis notwithstanding that the generating company or the transmission licensee or the distribution licensee or SLDC has not taken loan for working capital from any outside agency."*

4.64 The Petitioner would like to submit that it has considered one month of O&M expenses, maintenance spares at 40% of R&M expenses and receivables equivalent to one month of revenue billed for computing the working capital requirement for FY 2021-22.

4.65 The Petitioner has considered the interest rate of 10.90% (7.40% -SBI Base Rate on 01<sup>st</sup> April 2021 plus 350 basis points) for computing the Interest on Working Capital for final true-up of ARR for FY 2021-22.

		(Tariff Order dated 13.04.2022)	(Tariff Order dated 02.08.2021)	Final True-up
1	O&M for One Month	21.81	23.67	24.02
2	Maintenance Spares – 40% of R&M Expenses	18.82	17.75	24.98
3	Receivables – 1 Month of Fixed Cost	77.27	84.94	80.64

8	<b>Net Interest on Working Capital</b>	<b>13.73</b>	<b>13.77</b>	<b>14.13</b>

4.66 The Petitioner requests the Hon'ble Commission to approve IWC of Rs. 14.13 Crores for final true-up of ARR for FY 2021-22.

#### Prior Period (Income)/ Expense

4.67 CSPTCL would like to submit that there is Nil. prior period (income)/ expense for FY 2021-22 as per the accounts.

#### Incentive/Penalty on Transmission System Availability Factor (TSAF)

4.68 As per clause 51 of the MYT Regulations 2015, target availability of transmission system has to be specified for the control period for incentive/penalty payable/levied to a transmission licensee.

4.69 The MYT tariff order for the control period from FY 2016-17 to FY 2020-21 dated 30<sup>th</sup> April 2016, has specified the annual target availability factor for incentive/penalty consideration as 99% for the entire MYT control period from FY 2016-17 to FY 2020-21.

Provided further that no incentive/penalty shall be payable for availability beyond 99.75%

4.70 The transmission licensee shall be entitled to incentive/penalty on achieving the annual availability beyond/lower than the target availability in accordance with the following formula:

*Incentive/Penalty = Annual Fixed Charges for that year x (Annual availability achieved - Target availability) / Target availability*

4.71 Incentive/Penalty shall be shared equally (50:50) between the transmission licensee and beneficiaries.

4.72 The Petitioner has achieved TSAF of 99.79 % for FY 2020-21 as against target availability of 99%, and hence is eligible for incentive payment. It is to be noted that no incentive is payable for availability beyond 99.75%.

4.73 The detailed calculation of the incentive eligible to the Petitioner is as follows:

**Table 23: Incentive for higher transmission system availability for FY 2021-22 (Rs. Crores)**

Sr. No	Particulars	FY 2021-22
1	Annual Transmission System Availability Factor	99.79%
2	Annual Transmission System Target Availability Factor	99.00%
3	Max availability factor that can be claimed for incentive	99.75%
4	Incentive/(Penalty) to be claimed (Rs. Crores)	8.01
5	<b>Incentive on Transmission Availability (50%) (Rs. Crores)</b>	<b>4.00</b>

4.74 The incentive eligible to the Petitioner on account of achieving higher transmission system availability factor for FY 2021-22 is Rs. 4.00 Crores.

4.75 In view of the above, CSPTCL would like to submit that it has achieved better performance by achieving TSAF of 99.79% in comparison to normative TSAF of 99%.

### **Non - Tariff Income**

4.76 The Petitioner has considered Rs. 16.85 Crores as non-tariff income for CSPTCL based on the segmental notes to the audited accounts for FY 2021-22. The Petitioner has claimed non-tariff income as per the below table for FY 2021-22.

**Table 24: Non - Tariff Income for FY 2021-22 (Rs. Crores)**

Sr. No	Particulars	FY 2020-21	FY 2021-22

1	Non-Tariff Income	71.65	13.50	16.85

*Final True-up of ARR for FY22 and Determination of Transmission Tariff for FY 24*

4.77 Thus, CSPTCL would like to request the Hon'ble Commission to approve Non-Tariff Income of Rs. 16.85 Crores for FY 2021-22 based on the accounts.

**Aggregate Revenue Requirement (ARR) for FY 2021-22**

4.78 Based on the submission in the above paragraphs, the Aggregate Revenue Requirement (ARR) for FY 2021-22 is as shown below:

**Table 25: Aggregate Revenue Requirement (ARR) for FY 2021-22(Rs. Crores)**

18	<b>Aggregate Revenue Requirement (ARR)</b>	<b>906.68</b>	<b>1025.74</b>	<b>1056.73</b>

4.79 Thus, CSPTCL would like to request the Hon'ble Commission to approve Aggregate Revenue Requirement (ARR) of Rs. 1056.73 Crores for final true-up of ARR for FY 2021-22 as shown above.

**Revenue Surplus/ (Deficit)**

4.82 As per Hon'ble CERC order dated 16.02.2016 in petition no. 245/TT/2013, CSPTCL has executed RSA & TSA with Power Grid Corporation of India Limited on dated 02.08.2017 for disbursement of transmission charges by PGCIL in CSPTCL account in respect of 220 kV Natural Inter-State Transmission Lines belonging to CSPTCL.

4.83 Hon'ble CERC has made the following directives in the order dated 16.02.2016 at para 19 on petition no. 245/TT/2013:

*" The annual transmission charges allowed for the assets covered in the instant petition shall be considered in the YTC as per the sharing of Inter State Transmission Charges and Losses Regulation 2010 and shall be adjusted against the ARR of the Petitioner approved by the State Commission."*

4.84 On account of the above said order, CSPTCL received Nil amount from PGCIL towards POC charges during FY 2021-22.

4.85 The Hon'ble Commission may kindly consider the same while approving the true-up of ARR of CSPDCL for FY 2021-22.

**5: TARIFF PROPOSAL FOR LTOA/STOA/MTOA FOR FY 2023-24**

5.1 As per Chhattisgarh State Electricity Regulatory Commission (Connectivity & Intrastate Open Access) Regulation 2011 clause 33 of PART 8, Open access charges for using State Grid have been defined. The amendment in the Chhattisgarh State Electricity Regulatory Commission (Connectivity and Intra-State Open Access) First Amendment - Regulations, 2012 has also been incorporated in the below mentioned extract of clause 33 related to open access charges in the principal regulations.

**Transmission Charges**

5.2 The transmission charges for use of the transmission system of the STU/Transmission licensee for intra-state transmission shall be regulated as under:

*(a) The transmission charges for use of the intra-State transmission system shall be recovered from the long-term open access customers and the medium-term open access customers in accordance with terms and conditions of tariff specified by the Commission from time to time. These charges shall be as determined by the Commission under section 62(1) (b) of the Act, and shall be applicable as per the tariff order issued by the Commission from time to time. These charges shall be shared by the long-term open access customers and medium-term open access customers as per allotted capacity proportionately. Provided further that the transmission charges for using State grid by the long-term or medium-term open access customers for inter-State power transaction shall be shared on the basis of capacity allotted by the Central Transmission Utility (CTU).*

*Illustration: The basis for sharing of transmission charges shall be the maximum demand in MW served by the intra-state transmission system of the transmission licensee in the previous FY.*

*Suppose the maximum demand in previous FY 2015-16 is 3000 MW.*

*The capacity contracted by long-term open access customer is 50 MW.*

*The capacity contracted by medium-term open access customer is 20 MW.*

*The capacity served for distribution licensee shall be  $3000-50-20=2930$  MW*

*Suppose if annual estimated and approved transmission charge for FY 2016-17 is Rs. 300 crores, then monthly transmission charges for the FY 2016-17 shall be shared as follows:*

*Distribution licensee=  $(300 \times 2930) / (3000 \times 12) = \text{Rs } 24.4166 \text{ crores}$*

*Long-term open access customer=  $(300 \times 50) / (3000 \times 12) = \text{Rs } 0.4166 \text{ crores}$*

*Medium-term open access customer=  $(300 \times 20) / (3000 \times 12) = \text{Rs } 0.1666 \text{ crores}$*

*(b) The transmission charges shall be payable by the short-term open access customer for the energy approved /contracted for bilateral transaction at the point or points of injection. The energy approved shall be computed by considering the reserved capacity for bilateral transaction. The transmission charges payable by a short-term open access customer for the use of intrastate transmission system shall be calculated in accordance with the following methodology:*

*ST\_RATE = TSC / Net annual estimated energy input to the transmission system of STU/transmission licensee for the relevant year,*

*Where:*

*ST\_RATE is the rate for short-term open access customer in Rs. per kWh or in Rs/MWh*

*"TSC" means the annual transmission charges or annual revenue requirement on account of the transmission system as determined by the Commission. The transmission charges for use of intra-state transmission system for all type of transactions (bilateral or collective inter-State transactions through exchanges) shall be the same.*

*Illustration: Suppose if annual estimated and approved transmission charge for the FY 2016-17 is Rs 300 crores, and net annual estimated energy input to the transmission system of STU for the FY 2016-17 is 15000 MU.*

*ST\_RATE =  $300/15000 = 20 \text{ paisa per kWh}$  Or  $ST\_RATE = \text{Rs } 200/\text{MWh}$*

*Provided that the transmission charges for using State grid for short-term inter-State bilateral transaction shall be at the rate specified by the Commission from time to time for the energy approved by the Regional Load Despatch Centre for transmission at the point / points of injection.*

*Provided further that the transmission charges for using State grid for short-term inter-State collective transactions shall be at the rate specified by the Commission from time to time for energy approved by the National Load Despatch Centre for transmission separately for each point of injection and for each point of drawal.*

(c) The revenue thus earned from the short-term open access customers by the STU/ transmission licensee for bilateral transaction and collective transaction in a month shall be directly disbursed to the long term and medium term customers to reduce the transmission charges of the long-term and medium term open access customers for the successive months in proportion to monthly charges payable to them. The STU/ transmission licensee shall maintain separate account for the revenue earned from short-term customers and shall submit it to the Commission.

5.3 Based on the above regulation and methodology illustrated therein, the Hon'ble Commission, has determined STOA charges in the previous year tariff orders. Estimated energy handled by CSPTCL to determine the short term open access charges for FY 2023-24. Looking into the trend, CSPTCL would like to propose an increase of in maximum demand every year and energy handled for arriving at short term open access charges of respective FY's of the Control Period as tabulated below: -

**Table28: Proposed STOA Charges for FY 2023-24**

<b>Sr. No</b>	<b>Particulars</b>	<b>FY 2023-24</b>
